Planning for the Coming Quarter

- In previous years, we've planned the company around calendar years (Jan - Dec)
  - This introduced complications; it didn't align with our published accounts, or Google's FY
- So this year, our planning and financial year will run from April 2026 - March 2027
  - We will do our planning, budgeting and goal setting for 2026 in Feb/Mar for April kick-off
- But we don't want to leave things in-limbo for the next three months
- Therefore we're extending our 2025 planning year through to March 2026

- Rev. Target (Avg) for CYQ1 : **£105k**
  - +35% on Q1 2025
- Breakeven (Avg) for CYQ1 : **£93k**
  - Factors-in increased headcount

Head of Delivery Responsibilities

Project Success: Ultimately responsible for the successful delivery of projects. If a project goes off track, the Head of Delivery would be the point of escalation.

Renewals and Retention: Together with the CRO, Ensuring that clients and revenue are retained, accounts are grown and expanded and testimonials are published

Delivery Efficiency & Innovation : Together with the CEO, ensuring project delivery is timely, efficient, innovative and on-budget, leaning-in to AI and delivery analytics

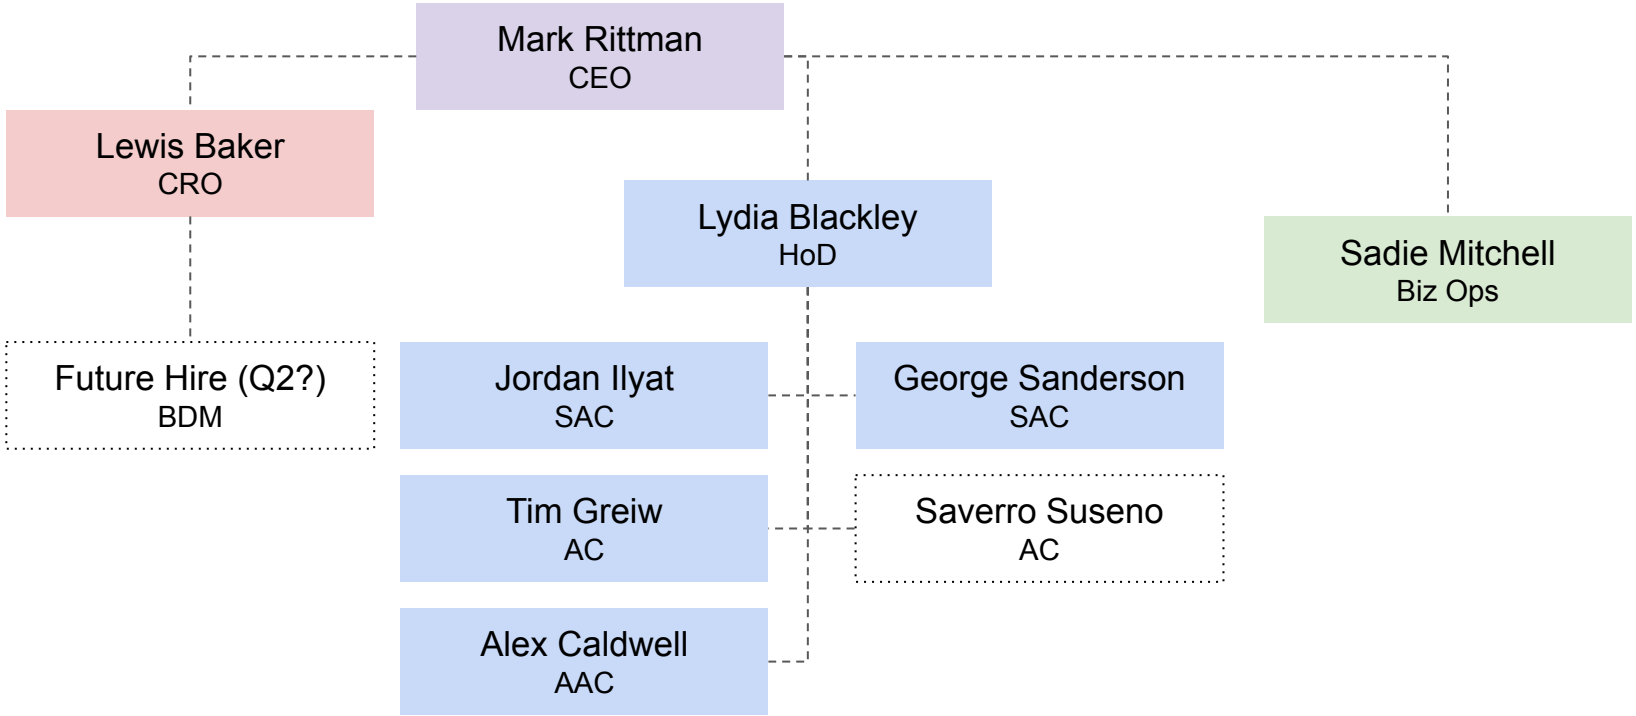

Team Performance & Development: Ensuring that team members are growing in their roles, are well-utilized, and are delivering high-quality work.
